

WESTERN WYOMING COLLEGE

ROCK SPRINGS, WYOMING 82901

January 10, 1985

To whom it may concern:

This letter is to highly recommend Dr. Randy Eaton for whatever position he may be applying. I met Randy when he came to Western Wyoming College as a sabbatical replacement for one of our professors. During his stay here he demonstrated an inexhaustible source of energy while carrying out his teaching assignments. In addition, he proved to be well-liked and respected by both his students and his colleagues. He is one on those rare faculty members that assumes other duties such as presenting academic seminars, organizing tour speakers, conducting field trips and speaking to civic groups with enthusiasm.

During his tenure here he rather quickly established himself as one of the leaders of our faculty; a person we could look to for intelligent and thoughtful comments on topics of interest to us.

When the contract period for Randy expired the college made special efforts to find means to keep him on staff but due to severe budget limitations we were not successful - a failure I feel we will regret for a long time.

I would also like to stress that in addition to his excellence as an instructor, Randy proved to be very personable. Most of us, in fact, lost a friend when he left which only seemed to make the academic loss that much more obvious.

If there are any specific items of interest I can furnish concerning possible employment for Randy please don't hesitate to call me at 307-382-2121 Ext. 463.

Sincerely,

A handwritten signature in cursive script that reads "James C. Aumiller".

James C. Aumiller Ph.D.

Professor of Chemistry
