

During Furman University's Year of the Environment, 2006-07, I chose to bring Dr. Eaton to campus ... In the evaluation of the 40+ programs offered on campus during the academic year, Dr. Eaton's speech about hunting as a rite of passage was likely the best received. Dr. Eaton's skill at both delivering a formal presentation and fielding questions was so impressive to me that I had to invite him back. Randall Eaton is is a rare and precious resource.

Frank Powell, Ph.D., Furman University
